

Making Restoration Work in Texas!
November 9-11, 2018
San Antonio, TX

CALL FOR SPONSORS

Texas Society for Ecological Restoration would like to extend an invitation to companies, agencies, organizations, and individuals interested in sponsoring the TXSER Annual Conference in San Antonio, Texas, November 9-11, 2018.

Invest in the future of our state by investing in those who take responsibility for stewarding the natural resources of the State of Texas.

The Texas Society for Ecological Restoration (TXSER) was formed in 1995 as a non-profit organization dedicated to connecting scientists, practitioners, and policy-makers to restore Texas ecosystems and the vital services they provide. TXSER is comprised of representatives throughout the geographical regions of Texas and is recognized as a critical source of scientific information and expertise on ecological restoration in the State.

The goal of our annual conference and membership meeting is to share state-wide and regional expertise, experience, and ideas to increase scientific dialogues and collaboration among restoration ecologists throughout Texas. The annual conference also serves as an important training ground for young professionals and students in the field of restoration ecology. Your sponsorship helps us to meet our goals by offering reduced student registration fees and reasonable registration fees for professionals.

TXSER is a 501(c)(3) nonprofit organization - your sponsorship contribution to TXSER is tax deductible and you will receive a letter from TXSER to document the contribution.

For questions or additional information please contact Julia Stanford at info@txser.org or 817-301-9371.

Thank you for your consideration!
