

2018 Conference Oral Presentation Topics – Page 1

- Healthy Watershed Approach To Managing Streams In A Dynamic World For Resistance, Resiliency And Restoration: Role Of Science, Stakeholders, Education And Partnerships
- Comparison Of Seasonal Prescribed Burning Effects On Forage Production And Composition Of Gulf Cordgrass Communities
- Exploring Allelopathy Of Native Woody Species As Potential Approach For Thorn Forest Restoration: A Test On Inhibition Of Germination And Emergence
- Establishing A Native Prairie Vegetation Bioswale To Assess Runoff Reduction
- Lessons Learned From A Section 203 Feasibility Study
- Testing The Effectiveness Of Sampling Environmental DNA To Detect The Presence Of Aquatic Invasive Plants
- The Art & Science Of KR Bluestem Restoration
- Mycorestoration Of A Ligustrum Japonicum-Invaded Urban Park In Austin, TX
- Black-Capped Vireo In Adjacent Arid And Mesic Communities: Population And Habitat Change Over 15 Years
- An Invasive Ungulate May Restrain Mangrove Range Expansion On The South Texas Coast
- Savannah Plant Community Dynamics Of The Eastern Edwards Plateau
- What's Wrong With Novel Ecosystems Really?
- Mesquite Savanna-Texas Wintergrass Complex: Best Management Practices For Conversion To Native Warm Season Grasses

2018 Conference Oral Presentation Topics – Page 2

- The Mission Reach Avian Study – Urban Ecosystem Restoration
- Hurricane-Induced Flooding Has Minimal Effects On East Texas Forests
- Variation In Growth Of KR (Bothriochloa Ischaemum) And Little (Schizachyrium Scoparium) Bluestem In The Presence And Absence Of Field-Collected Fungal Endophytes
- Evaluation And Development Of Native Seed Sources For West Texas
- The Use Of Prescribed Fire, Herbicide Application, And Native Plants To Restore Bottomland Blackland Prairie In Constructed Wetlands
- Conservation Of Private Lands With High Ecological Values For Butterfly Diversity In Hong Kong, China
- Soil Microbe Composition Can Facilitate Sideoats Grama (Bouteloua Curtipendula) Establishment When Growing In Competition With Bermuda Grass (Cynodon Dactylon)
- Quail Habitat Restoration In Areas Dominated By Non-Native Grass
- Ecological Restoration In An Urban Park Context: Bringing Habitat To Memorial Park
- King Ranch Bluestem And Fire: Impacts And Control Of An Invasive Grass
- Restoration Of Native Submersed Aquatic Macrophytes For An Endangered Fish Species: Results After Five Years
- Giant Ragweed Is The Answer
